

100% CONTENT PRESERVED

ATS GLOBAL TECH — Complete Website Overview & 3D Redesign Master Blueprint

Comprehensive page-by-page content inventory, structural mapping, and futuristic 3D animated redesign plan. Prepared specifically to overhaul the entire UI/UX, typography, and color architecture while strictly preserving every headline, stat, testimonial, and business value proposition.

Project:

ATS Global Tech Website Overhaul

Current Stack:

React 19.2 · TypeScript 5.9 · Tailwind v4 · Vite 7.3

Target Aesthetic:

Cyber Modern 3D · Framer Motion · Glassmorphism

Document Status:

Ready for PDF Print & Execution

01

New 3D Animated Color & Design System Architecture

Why We Are Changing the Design & Palette

Global System

The current website uses a mix of generic teal/cyan accents and an outdated serif font (fontFamily: "Times New Roman, serif") across key sections. The UI lacks depth, modern motion hierarchy, and interactive 3D polish expected of an enterprise tech leader.

Deep Space Obsidian
#080C14 (Background)

Cyber Slate Surface
#0F172A (Cards & Modals)

Electric Cyan 3D
#00F2FE (Primary Glow)

Neon Indigo
#6366F1 (Secondary Accent)

Holographic Violet
#A855F7 (Gradient Accent)

Emerald Mint
#10B981 (Success & Metrics)

CURRENT VISUAL ISSUES

- Inline Times New Roman font applied arbitrarily on modern tech components.
- Flat cards with standard light gray borders and static CSS shadows.
- Basic 2D Swiper carousels with default arrow styling.
- Lack of micro-interactions and 3D depth on user cursor movements.

NEW 3D & FRAMER MOTION RULES

- **Typography:** Plus Jakarta Sans (Clean UI Body) + Space Grotesk (Futuristic Display Headlines) + JetBrains Mono (Tech Specs).
- **Interactive 3D Tilt:** Cards respond to mouse position using framer-motion spring physics (`rotateX`, `rotateY`, `scale: 1.02`).
- **Glassmorphism:** Deep translucent background blur (`backdrop-blur-xl bg-slate-900/60 border border-slate-700/50`).
- **Floating 3D Elements:** Floating tech cubes, holographic glows, and animated gradient mesh canvases.

02 Home Page — All 10 Sections Content & Redesign

1. Hero Section

Route: /

EXACT CURRENT CONTENT PRESERVED

- **Headlines & Taglines:** Dynamic vertical sliding words: *"future"*, *"ideas"*, *"vision"*, *"growth"*.
- **Main Heading:** "Transforming Your Ideas Into Digital Reality".
- **Subtext:** "Empowering enterprises and startups with cutting-edge software, cloud infrastructure, AI automation, and bespoke engineering solutions."
- **Primary Action:** "Let's Create Together" (navigates to /lets-create).
- **Slideshow Images:** 6 curated enterprise tech, coding, and team collaboration images.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **3D Mesh Sphere:** Interactive 3D particle canvas or interactive globe on the right side rotating on mouse drag.
- **Kinetic Typography:** Framer Motion AnimatePresence with smooth 3D flip effect on sliding words ("future", "ideas", "vision", "growth") with gradient glow.
- **Floating Glass Badges:** Floating telemetry chips showing "99.9% Uptime", "AI-Powered", "Enterprise Ready" hovering with floating Y-axis loops.
- **Magnetic CTA Button:** Neon cyan glowing button with magnetic pull towards cursor and ripple wave on hover.

2. Why Clients Love Working With Us (Proven Track Record)

Component:
ProvenTrackRecord.tsx

EXACT CURRENT CONTENT PRESERVED

- **Section Title:** "Why Clients Love Working With Us"
- **Subtext:** "We deliver powerful digital solutions designed to accelerate growth, enhance performance, and help businesses stay ahead in a fast-changing world."
- **Pillar 1 — Fast Delivery:** "We ensure rapid project turnaround without compromising quality."
- **Pillar 2 — Creative Ideas:** "Innovation-driven solutions tailored uniquely for each client."
- **Pillar 3 — Global Presence:** "We work with clients across the world to deliver impactful results."
- **Pillar 4 — Top Security:** "Your projects and data stay protected with enterprise-grade security."
- **Pillar 5 — Client First:** "We prioritize your satisfaction above everything else."
- **Pillar 6 — High Performance:** "Powerful, optimized, and scalable solutions every single time."

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Hexagonal 3D Cards:** Staggered entrance animation with 3D perspective depth (perspective: 1000px).
- **Dynamic Icon Rings:** Glowing animated SVG rings around the Rocket, Lightbulb, Globe, and Shield icons that spin on hover.
- **Interactive Tilt:** Mouse tracking card tilt using framer-motion transforms for a true tactile feel.

3. Core Technology Services

Component: `TechnologyServices.tsx`

EXACT CURRENT CONTENT PRESERVED

- **Custom Software Development:** Full-stack development, API integration, Database design.
- **Cloud Solutions & DevOps:** Cloud migration, CI/CD pipelines, Infrastructure as Code, Monitoring & logging.
- **Mobile App Development:** iOS & Android native, Cross-platform, App Store optimization, Push notifications.
- **Cybersecurity Solutions:** Security audits, Penetration testing, Compliance (SOC2, HIPAA).
- **AI & Machine Learning:** Custom AI models, Natural language processing, Computer vision.
- **Data Engineering:** Big data solutions, Data warehousing, ETL pipelines, BI dashboards.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **3D Holographic Tabs / Slider:** Sleek futuristic carousel with glassmorphic cards, neon edge lighting, and depth-of-field blur on inactive slides.
- **Animated Feature Chips:** Checkpoint badges pulse with soft cyan light on hover.
- **Smooth Navigation:** Floating glass navigation buttons with soundless magnetic physics.

4. Technology Stack Matrix

Component: TechnologyStack.tsx

EXACT CURRENT CONTENT PRESERVED

- **Languages:** JavaScript, TypeScript, Python, Java, PHP, C++, Kotlin, Swift.
- **Cloud & DevOps:** Azure, Google Cloud, Docker, Kubernetes, GitHub, Jenkins, AWS, Terraform.
- **Databases:** MongoDB, MySQL, PostgreSQL, Firebase, SQLite, Redis.
- **Frameworks:** React, Node.js, Next.js, Express, Angular, Vue, Flutter, Django, Spring Boot.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **3D Interactive Orbit / Marquee:** Infinite smooth floating ribbons with 3D tech icons that pause on hover.
- **Category Filter Tabs:** Tab switcher with animated sliding background pill using Framer Motion `layoutId="activeTab"`.
- **Hover Tooltips:** Floating 3D tooltip displaying tech level and use cases.

5. Featured Success Stories & Why Choose Us

Components: `FeaturedSuccessStories.tsx` & `WhyChooseUs.tsx`

EXACT CURRENT CONTENT PRESERVED

- **RetailMax Inc. (AI E-Commerce):** AI recommendation engine, 60% faster page load, Automated inventory tracking.
- **Community Bank (Secure Mobile App):** Biometric login, 256-bit encryption, Fraud detection alerts.
- **GlobalTech Corp (Cloud Migration):** Zero-downtime migration, 45% cost reduction, High availability setup.
- **MedCare Solutions (Healthcare Analytics):** HIPAA-compliant, Predictive analytics, Real-time dashboards.
- **8 Why Choose Us Points:** 24/7 Support, Agile methodology, Quality assurance, Scalable architecture, Modern tech stack, Cost-effective, Progress updates, Post-launch support.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Glassmorphic Project Showcases:** High-depth cards with dark glass overlays, neon status indicators, and expanding detail panels.
- **Interactive Metrics Counter:** Numbers count up smoothly from 0 to 60%, 45%, etc. using Framer Motion `useInView` and `animate()`.
- **Split Screen 3D Showcase:** Floating product mockups that tilt subtly when scrolling past.

6. Innovation Journey, CTA & Contact Section

Components: InnovationJourney.tsx, CallToAction.tsx, ContactSection.tsx

EXACT CURRENT CONTENT PRESERVED

- **Office HQ:** ATS building, 4/98, Ajmer Rd, Purani Chungi, Vidhyut Nagar, Jaipur, Rajasthan 302021.
- **Phone Contacts:** +91 9929825003 / +91 820 917 5003
- **Email:** info@atsglobaltech.in
- **Social Media Links:** Facebook, Instagram, LinkedIn, YouTube.
- **CTA Guarantees:** Free Consultation, Quick Response (<24 hours), Customized Solutions.
- **Lead Form Fields:** First Name, Last Name, Email, Phone, Company, Project Details.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Dark Cyber Map UI:** Styled Google Maps container with dark mode filter and animated radar pulse beacon on the office coordinates.
- **Cyber Glow Lead Form:** Inputs with floating labels, glowing neon cyan focus rings, and animated submit button with spinner.
- **Social Cubes:** 3D rotating social badges that spin 360 degrees on cursor hover.

About ATS GLOBAL TECH & Leadership Story

Route: /about

EXACT CURRENT CONTENT PRESERVED

- **Mission:** Deliver scalable, secure & innovative tech solutions that accelerate global business growth.
- **Vision:** To lead the future of digital transformation with intelligence and innovation.
- **Core Values:** Integrate, Excellence, Innovation, Customer First & Collaboration.
- **Leadership Spotlight:** Ajeet Singh — CEO & Founder.
- **Executive Quotes:**
“We don’t just create technology — we create growth, opportunity, and success.”
“Leadership is not a position — it’s an influence that creates change.”
- **Bio:** 15+ years of global tech experience with startups, mid-scale companies, and global enterprises adopting Cloud, AI Automation, Full-Stack Engineering, and Scalable Digital Platforms.

15+

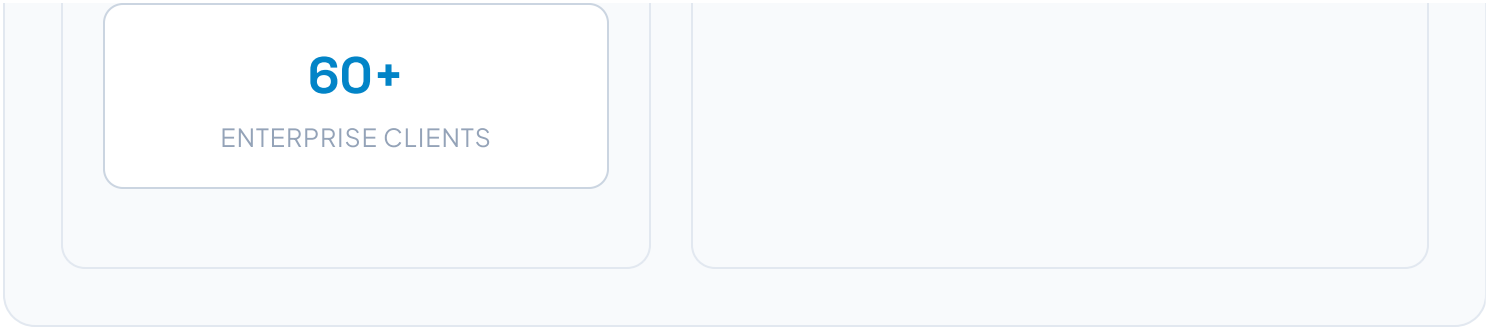

YEARS LEADING

500+

PROJECTS DONE

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Hero Parallax Depth:** Parallax header with layered geometric grid lines and glowing particle background.
- **3D Hologram Mission/Vision Cards:** Elevated frosted glass cards with reflective gradient edges that shift angle with mouse motion.
- **Executive Holographic Badge:** CEO photo framed in a sleek 3D hexagonal/squircle border with rotating neon accent beam and interactive quote reveal.
- **Re-integrated Team Grid:** Bring the commented-out engineering team (Pramod, Aakash, Rahul, Kamlesh) into an ultra-modern 3D team showcase cards with direct portfolio links!

04

Services & Simple 4-Step Engineering Process

Full Services Catalog & Delivery Process

Route: </services>

EXACT CURRENT CONTENT PRESERVED

- **1. Custom Software Development:** \$25,000+ · Full-stack development, API integration, Testing & deployment, Maintenance. (Popular)
- **2. Mobile App Development:** \$18,000+ · Cross-platform options, User-friendly design, Push notifications, App publishing.
- **3. Web Development:** \$13,000+ · Responsive design, SEO Optimization, High performance, Secure hosting.
- **4. Database Solutions:** \$12,000+ · Performance tuning, Backup strategies, Data migration, Admin dashboards.
- **5. Cloud Architecture:** \$24,000+ · Cloud migration, CI/CD automation, Monitoring & alerts, Serverless deployment. (Popular)
- **6. Cybersecurity:** \$23,000+ · Security audits, Risk assessments, Implementation, Compliance.
- **4-Step Process:**
 - **Step 1 Discovery:** We deeply understand your goals, unique needs, and technical challenges.
 - **Step 2 Planning:** We design a comprehensive, smart strategy

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Interactive Pricing Cards:** 3D elevated cards with neon badge tags, animated tier checkmarks, and hover-triggered glass specular reflection.
- **Connected Process Timeline:** An animated glowing neon path connects Step 1 to Step 4 that draws itself as the user scrolls down the page.
- **Hover Micro-Interactions:** Feature checkmarks morph and pulse when the card is hovered.

and blueprint tailored to your business vision.

- **Step 3 Development:** We meticulously build high-quality, scalable solutions using agile methodologies.

- **Step 4 Launch & Support:** We seamlessly deploy and provide dedicated long-term support and maintenance.

05

Enterprise Products & SaaS Suites

Turnkey Products & Enterprise Solutions

Route: /products

EXACT CURRENT CONTENT PRESERVED

- **6 Core Enterprise Platforms:**
 - **ATS ERP Suite:** Integrated Finance & Accounting, Supply Chain Management (SCM), Manufacturing & Production Planning.
 - **CRM Pro+:** Lead & Opportunity Tracking, Sales Automation & Forecasting, Customer Service & Ticketing.
 - **HRMS Cloud:** Cloud-Based Payroll & Tax Filing, Employee Attendance & Leave Management, Performance Review Tracking.
 - **ATS POS System:** Inventory & Stock Control, Multi-Store Synchronization, Mobile & Contactless Payment Support.
 - **ProjectFlow:** Agile & Scrum Project Boards, Real-time Team Collaboration, AI-driven Resource Allocation.
 - **DataVision Analytics:** Customizable Business Dashboards, Predictive Modeling & Reporting, Data Governance & Security.
- **6 Featured Turnkey Systems:**
 - Hospital Management System (10K+ Users, Rating 4.8, Free tier)
 - Hotel & Restaurant Management System (5K+ Users, \$49/mo, Rating 4.9)
 - Learning Management System (15K+ Users, Free tier, Rating 4.7)

NEW MODERN 3D & FRAMER MOTION DESIGN

- **SaaS Product 3D Viewport:** Product cards designed like futuristic software interface monitors with glowing edge borders and real-time interactive previews.
- **Live Filter Switcher:** Instant filtering between "Enterprise Suite" and "Turnkey Systems" with smooth layout animations.
- **Animated Rating Stars:** Glowing golden stars with animated counter badges for user count and reviews.

- POS Billing Management System (8K+ Users, \$59/mo, Rating 4.6)
- Real Estate Management System (3K+ Users, \$79/mo, Rating 4.8)
- E-Commerce Multi-Vendor Platform (25K+ Users, Free tier, Rating 4.5)

06

Industries Served (8 Dedicated Verticals)

Domain Expertise & Global Reach

Route: /services/industries

EXACT CURRENT CONTENT PRESERVED

- **1. Healthcare & Life Sciences:** Telemedicine Platforms, AI Diagnostics & Analysis, HIPAA Compliant Data Management.
- **2. Financial Services:** Secure Mobile Banking Apps, Real-Time Fraud Detection (AI/ML), Regulatory Compliance (PCI DSS).
- **3. Retail & E-commerce:** Omni-Channel Store Integration, AI-Powered Product Recommendations, Inventory & Supply Chain Optimization.
- **4. Education & EdTech:** Virtual Classroom Solutions, Adaptive Learning Platforms, Student Performance Analytics.
- **5. Manufacturing & Industrial:** IoT Integration & Monitoring, Predictive Maintenance Systems, Robotic Process Automation (RPA).
- **6. Logistics & Supply Chain:** Real-Time Fleet Tracking, Route Optimization Algorithms, Warehouse Management Automation.
- **7. Real Estate & PropTech:** Virtual Property Tours (3D), Automated Lease Management, Real Estate Marketplace Platforms.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **3D Industry Bento Grid:** A high-tech Bento-style layout where each industry tile features an interactive depth parallax effect on scroll.
- **Icon Glow Animations:** Icons (Heart, Banknote, ShoppingCart, GraduationCap, Building, Truck, House, Gamepad) light up with vertical laser accents.
- **Live Stat Counters:** 25+, 200+, 5+, 15+ dynamically count up with spring dampening on scroll.

• **8. Gaming & Entertainment:**

Multiplayer Game Backend,
Streaming & Content Delivery
(CDN), Interactive Web3/NFT
Solutions.

Projects & Portfolio Showcase

Filterable Enterprise Portfolio

Routes: /work/projects & /work/portfolio

EXACT CURRENT CONTENT PRESERVED

- **E-Commerce Platform:** React, Node.js, MongoDB, TensorFlow · Rating 4.8 · 20K+ Users · 9 Months · Retail & Ecom.
- **FinTech Mobile App:** React Native, Node.js, PostgreSQL, AWS · Rating 4.9 · 1M+ Users · 6 Months · FinTech.
- **Healthcare Management Portal:** React, Python, Django, AWS · Rating 4.9 · 5K+ Users · 12 Months · Healthcare.
- **Enterprise Cloud Migration:** AWS, Kubernetes, Terraform, Docker · Rating 4.9 · 50K+ Users · 8 Months · Cloud Solutions.
- **AI Customer Support Bot:** Python, Rasa, FastAPI, React · Rating 4.7 · 89+ Languages · 4 Months · AI & Automation.
- **SaaS Analytics Dashboard:** Next.js, ClickHouse, Go, Tailwind · Rating 4.8 · 15K+ Users · 7 Months · Business Intelligence.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Framer Motion Filter Transition:** Category switching ("All", "Web", "Mobile", "Cloud", "AI") with smooth fluid repositioning via layout prop.
- **Interactive 3D Card Hover:** Cards tilt in 3D perspective toward the user's cursor with specular holographic highlight overlay.
- **Tech Badge Chips:** High-contrast tech badges with subtle glass borders and tooltips.

08 Transformative Case Studies & 7 Dedicated Pages

Full Case Studies & Specialized Deep-Dives

Routes: /work/case-studies + 7 Dedicated Landing Pages

EXACT CURRENT CONTENT PRESERVED

- **1. AI-Powered E-Commerce Revolution (/ai-page):**
 - Challenge: Low conversion rates, cart abandonment, inventory loss.
 - Metrics: +300% Revenue, +85% Conversion Rate, -60% Cart Abandonment, 96% Satisfaction.
- **2. Secure Banking Transformation (/secure-page & /fintech-page):**
 - Challenge: Legacy banking systems hindered digital security & adoption.
 - Metrics: 90% Mobile Adoption, 99.9% Fraud Prevention, 10x Processing Speed, 45% Cost Reduction.
- **3. Healthcare Analytics Revolution (/health-page):**
 - Challenge: Hospitals struggled with fragmented patient records & delayed diagnoses.
 - Metrics: +40% Diagnosis Speed, +35% Patient Outcomes, \$5M Annual Savings, 99.8% Data Accuracy.
- **4. Enterprise Cloud Migration (/cloud-page):**
 - Challenge: High on-prem maintenance costs and rigid deployment bottlenecks.
 - Metrics: 60% Cost Reduction,

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Dedicated 3D Hero Banners:** Each case study page receives a customized 3D vector illustration/graphic representing its domain (Cloud cubes, AI neural web, Banking shield, Healthcare ECG).
- **Before/After Interactive Slider:** Visual comparison showing legacy architecture vs modernized microservices architecture.
- **Animated KPI Badges:** Massive glowing stats (+300%, 99.9%, \$5M) with dynamic progress bars and neon accents.

99.99% Uptime, 90% Faster
Deployment, 15 Countries.

- **5. SaaS Analytics Dashboard (/saas-page):**

- Challenge: Multi-tenant data ingestion bottlenecks and sluggish dashboard reporting.
- Metrics: Sub-second queries, 15K+ concurrent tenants, 99.9% real-time pipeline reliability.

- **6. AI-Powered Chat Assistant (/aichat-page):**

- Challenge: Support ticket backlogs and repetitive queries driving high operational overhead.
- Metrics: -62% Resolution Time, 45% Ticket Deflection, 89+ Languages, 4.7/5 Satisfaction.

Careers, Culture & Job Openings

Talent Acquisition & Open Positions

Route: [/careers](#)

EXACT CURRENT CONTENT PRESERVED

- **1. Senior Full Stack Developer (Jaipur):** React, Node.js, TypeScript, AWS. Scale web apps & mentor developers.
- **2. UI/UX Designer (Jaipur):** Figma, Prototyping, User Research. Craft elegant design systems and user journeys.
- **3. Cloud DevOps Engineer (Jaipur):** AWS, Docker, Kubernetes, CI/CD. Automate infrastructure and CI/CD pipelines.
- **4. Data Scientist (Jaipur):** Python, Machine Learning, SQL, TensorFlow. Analyze complex datasets and build predictive ML models.
- **5. Product Manager (Jaipur):** Agile, Leadership, Analytics, Strategy. Drive product roadmap and engineering alignment.
- **6. Cybersecurity Specialist (Jaipur):** Penetration Testing, CISSP, Network Security. Vulnerability assessments & compliance.
- **4 Core Culture Perks:** Work-Life Balance (Hybrid/Flexible), Continuous Learning (Certifications & courses), Health & Wellness (Comprehensive

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Interactive Job Accordion / Modal:**
Expandable 3D glass cards with smooth Framer Motion spring expansion.
- **Integrated Job Details:** Connect the previously orphaned `JobDetails.tsx` component directly into this flow so applicants can review comprehensive responsibilities!
- **Multi-Step Animated Application Flow:**
Interactive upload zone for resumes with drag-and-drop animated dropzone.

coverage), Growth & Equity
(Clear promotions).

10

Idea Bank (“Let’s Create Your Vision”)

Interactive Innovation & Project Incubator Form

Route: /lets-create

EXACT CURRENT CONTENT PRESERVED

- **Header:** "IDEABANK — Let's Create Your Vision & More".
- **Subtext:** "Have a concept or enterprise challenge? Submit your idea and collaborate with ATS engineers to architect a high-growth digital product."
- **Form Inputs:**
 - Full Name & Organization
 - Email & Contact Phone
 - Project Category (Web, Mobile App, AI/ML, Cloud Infrastructure, Custom ERP, Cybersecurity)
 - Expected Timeline & Budget Tier
 - Detailed Vision / Problem Description

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Gamified Multi-Step Wizard:** Step 1 (Concept) → Step 2 (Category & Scope) → Step 3 (Contact & Submission) with smooth horizontal slide transitions.
- **Visual Category Selector Cards:** 3D glowing selectable chips with active state neon outlines instead of boring dropdowns.
- **Success Celebration:** High-impact celebratory particle burst upon form submission confirmation.

- **3. Mobile-First Development: Why It Matters:** Mobile traffic patterns and cross-platform speed by Alex Johnson (5 min read · 1.6K views).
- **4. Data Analytics: Turning Information into Intelligence:** BI dashboards and predictive modeling by David Kim (9 min read · 1.9K views).
- **5. The Rise of Low-Code Development Platforms:** Opportunities, trade-offs, and enterprise fit by Lisa Wang (6 min read · 1.4K views).
- **6. DevOps Best Practices for Faster Delivery:** CI/CD automation and test pipelines by James Mitchell (8 min read · 2.3K views).

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Magazine Bento Layout:** Featured article in an oversized hero card with glowing glass badge; remaining 5 articles in a sleek 3D masonry grid.
- **Reading Progress Indicator:** Subtle neon cyan progress bar running at the top of the browser viewport during reading.
- **Hover Image Zoom & Tilt:** Smooth 3D image scale and parallax lens flare on hover.

12

Individual Team Engineering Portfolios

Full Developer Profiles & Skill Matrices

Routes: /team-members, /team-members2, /team-members3, /team-members4

EXACT CURRENT CONTENT PRESERVED

- **Pramod Saini (/team-members):** Senior Frontend Developer · Expertise in React, Tailwind, JavaScript, UI/UX architecture, responsive design, state management.
- **Rahul Kumawat (/team-members2):** MERN Stack Developer · Expertise in React, Node.js, Express.js, MongoDB, RESTful APIs, JWT authentication.
- **Aakash Kumawat (/team-members3):** Senior Backend Developer · Enterprise backend engineer with expertise in Python, Django, MySQL, distributed systems, system design.
- **Kamlesh Kumar Sharma (/team-members4):** Full Stack Developer · Expertise in JavaScript, React, C#, .NET Core, MySQL, enterprise software solutions.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Unified Dynamic Route:** Convert separate disjointed URLs (/team-members2, etc.) into clean modern route /team/:id with seamless routing transitions.
- **Interactive 3D Skill Bars:** Visual glowing skill percentage meters that animate into view with spring physics.
- **Developer GitHub/Project Showcase:** Cards showing verified projects with live links, tags, and animated expand modals.

Legal & Compliance Documentation

Privacy Policy & Terms of Service

Routes: </privacy-policy> & </terms-of-service>

EXACT CURRENT CONTENT PRESERVED

- **Privacy Policy Content:** Data collection principles, client confidentiality, cookie usage, third-party disclosure safeguards, GDPR/data protection compliance.
- **Terms of Service Content:** Usage agreement, intellectual property ownership, service availability SLA, limitation of liability, user account responsibility.
- **Fix Included:** Remove broken empty-key Imagen AI API calls currently slowing down PrivacyPolicy rendering and replace with high-res SVG security shields.

NEW MODERN 3D & FRAMER MOTION DESIGN

- **Clean Sticky Anchor Sidebar:** A persistent left navigation sidebar allowing users to jump directly between legal clauses with active scroll spy highlight.
- **Ultra-Readable Dark Typography:** High-contrast typography with gentle line spacing, code blocks for policy versions, and printable summary export.
